

IN THE SPECIFICATION:

Kindly amend the specification by inserting before the first line:

AI
This application is a continuation of reissue application Serial Number 09/039,106, filed
on March 13, 1998, ^{now re 36571} ~~currently pending~~. The above-listed application Serial Number 09/039,106
is commonly assigned with the present invention and is incorporated herein by reference. Serial
Number 09/039,106 is a reissue of application Serial Number 08/225,027,
^{filed on April 8, 1993}
now U.S. Patent No. 5,528,482, which is a continuation of application
Serial No. 08/054,918, filed on April 29, 1993, now U.S. Patent No. 5,303,138.

IN THE CLAIMS:

Kindly cancel Claims 1-60 without prejudice or disclaimer.

Kindly add Claims 61-110 as follows:

Ans
61
A2
--61. A method of operating a power converter, comprising:
providing a power transformer having a plurality of windings;
limiting a voltage across at least one of said plurality of windings with a clamping circuit
during a clamping interval of said power converter; and
rectifying said voltage with a synchronous rectification device having a control terminal
responsive to a signal across at least one of said plurality of windings such that said synchronous
rectification device is active for substantially all of said clamping interval.--
